Batch Activities

Contact unlimited candidates with the click of a mouse...

- Recruiter finds qualified pool of candidates in Adapt
- Recruiter records message and Accelerator calls through the entire list
- Candidates are notified in minutes and prompted to respond if interested
- Search results are automatically refined based on candidate responses
- Notifications end automatically once the number of workers have confirmed

Send a Batch Fax

This activity, powered by eFax, will send a fax to multiple contacts then attach the fax back to each contact in Adapt

Send a Batch Email

Utilizing Adapt's batch emailing, users can email job opportunities, contact prospects and clients, and send out any general email. The emails are blinded to each recipient and Adapt automatically attaches the email to each recipient's journal within the system.

Send a Batch Text Message

The text messages are blind copied to ensure confidentiality. Adapt automatically attaches the text to each recipient's journal within the system.
