

**BOND**

## Desktop & Email Hosting

# **BOND** adapt

By providing you with IT applications through a highly secure and reliable hosted solution, Bond removes the hassle of tedious daily maintenance and updates which allows your firm to focus on driving your business forward.

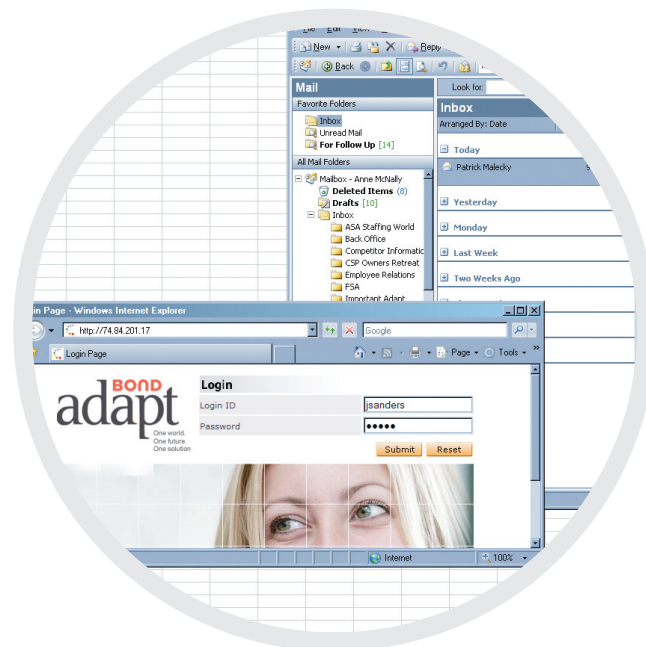

Desktop & Email Hosting

### SERVICE MANAGEMENT

Own the system without having to deal with daily maintenance. Bond Adapt's hosted solution features applications directly tied into your business functions. With our back office module of Adapt Financials, email with MS Outlook, and Adapt itself as the backbone to your staffing and recruitment needs, managing your services has never been easier.

### FLEXIBLE ALTERNATIVES

Adapt as a hosted desktop is essentially a turnkey solution with established product packages that are supported by Bond. If after time self hosting is desired, the Adapt application can be moved onsite to your location.

### PROTECTION AND PEACE OF MIND

Your solution is housed in our highly secure, Tier 1 data center with dry-fire suppression to ensure that your IT infrastructure is protected. Bond also offers disaster recovery as added insurance and protection.

### MINIMIZE IT COSTS

Let your staff focus on your core business. Your hosted system is monitored and maintained by our trained professionals which helps to eliminate your need for IT staff. No hardware costs are incurred and our IT professionals make sure your system is performing at peak capacity, so IT hassles are a thing of the past.
