

BOND

Recruit **One**

Bond has partnered with a number of industry-leading service providers to create Adapt Recruit One. This next-generation staffing solution offers significant productivity enhancements in one system, providing unique and measurable benefits. Any database can track data: Recruit One transforms data into actionable information. Use it to accelerate sales, increase placements and boost margins. Take control of your data with Recruit One.

Recruit One Modules

Recruit One

ACCELERATOR

Adapt Accelerator is a communication module that gives you the means to find, qualify, and submit experienced candidates before your competitors even have a chance to respond to a job request.

This invaluable tool enables your staff to contact and receive instant replies from hundreds of candidates through their preferred contact methods including text message, phone, IM, and more. High volume, fast-turnaround orders can now be filled in minutes, not days, dramatically improving both revenue and profitability.

PARSER

With Adapt Parser, importing resumes from multiple sources is easier than ever. Through a user friendly interface incorporating data extraction technology from Daxtra, Parser dramatically reduces the time recruiters spend sorting through resumes for qualified candidates. Whether importing one resume or a hundred, Parser pulls critical information from selected resumes directly into the Adapt database. A new record is automatically created and fully populated with key details, including skills, work history and education, so that qualifications can be immediately used for searching or updating purposes. Advanced duplicate management allows recruiters to update existing candidate files while maintaining data integrity.

SEEKER

Adapt Seeker offers advanced searching technology that allows for simultaneous searches for candidates across multiple sources. Resumes are automatically loaded into Bond's parsing engine for interpretation and importing into Adapt. Powered by InfoGist, with the ability to search over 200 different resume boards, Seeker helps you find the right candidate, right now.

FINANCIALS

Adapt Financials is a complete financial system created specifically for the staffing industry that offers a seamless front-to-back office integration of payroll, Accounts Payable, Accounts Receivable, invoicing, General Ledger, and reporting. Payroll transactions are handled rapidly and simply through processing capabilities that allow for streamlined timecard management. Adapt allows unlimited custom invoices to be created for your specific client needs. General ledger includes automated dual entry features that save you time and manage your current receivables through Cash Receipt and Aging Reports. You also have the ability to export to multiple third party applications such as Great Plains and ADP. With over 200 standard reports and a suite of supplemental modules, Adapt Financials gives you the flexibility you need to manage a broad range of real-world accounting scenarios.

Recruit One

EVALUATOR

Evaluator gives you the power to interpret information with accuracy, speed, and peace of mind. Adapt and Intelius have partnered to provide integrated background checks, specialized skills testing and certifications. A full range of quality assessments including tests for clerical, software, industrial, healthcare, financial and technical classifications combined with the advanced testing engine, deliver reliable and accurate information to fit your unique needs. Be confident about your placements by ensuring you provide the highest quality candidates to your customers.

CTI MANAGER

CTI Manager is a Computer Telephony Integration solution which links your phone system to a users PC and Database. This tool is a powerful productivity enhancement that gives every employee their own personalized, easy to use softphone for managing their communications and making maximum use of their time on the phone. It has an easy-to-use address book; call history viewing and extension status.

JOB POSTER

Reduce the administrative headache of having to visit individual job boards to post employment vacancies through Adapt's Job Poster. Bond's Adapt, in collaboration with eQuest, now provides access to over hundreds of international job boards ranging from major employment websites to niche and speciality job boards. Through a single one-page interface, you will be able to post jobs to multiple job boards in seconds and have complete control over every aspect of the job posting process from managing division and recruiter access, real-time display counters that show how many jobs are left to post, to automated email notices to be sent when job board inventory gets low. Job Poster helps to reduce your existing costs for job posting distribution with the right solution.

WEB SERVICES

A powerful and flexible end-to-end solution designed to support and streamline your entire staffing process. Web Services integrates all stakeholders involved, enabling candidates and employees to collaborate in real time using role specific home pages. Access the system via the internet to create new job orders, view existing job orders and approve timecards electronically. Designed to be information intuitive and functionality relevant for each individual user, this solution helps you manage internal and on-line candidate applications and allows the candidate to update and amend their profiles, resumes and monitor their placement progress.
