## User Interface

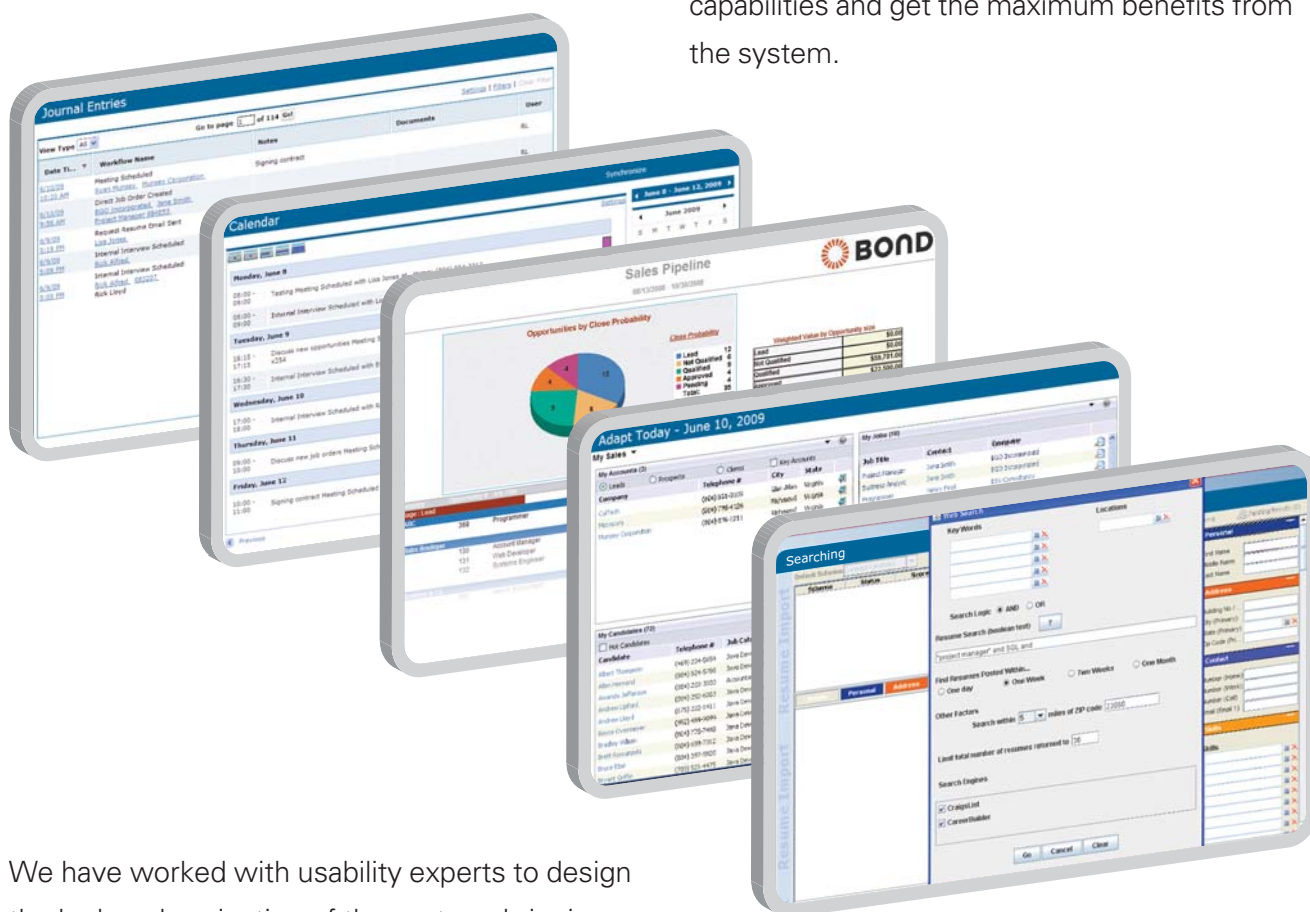

# BOND adapt

### Integrated insight of key information

Our new user interface is smart, modern, clean and intuitive. It is built to look and feel like a website so that the user immediately feels confident exploring pages.

The user is provided with a highly organized color rich set of screens to ensure they use the full capabilities and get the maximum benefits from the system.

User Interface

We have worked with usability experts to design the look and navigation of the system, bringing you an application that is easy to work with and minimizes training.
